Individual Challenge 2 / 11

I changed the tags to be more visually appealing by containing them inside of rectangles instead of as open links.

Sign Up

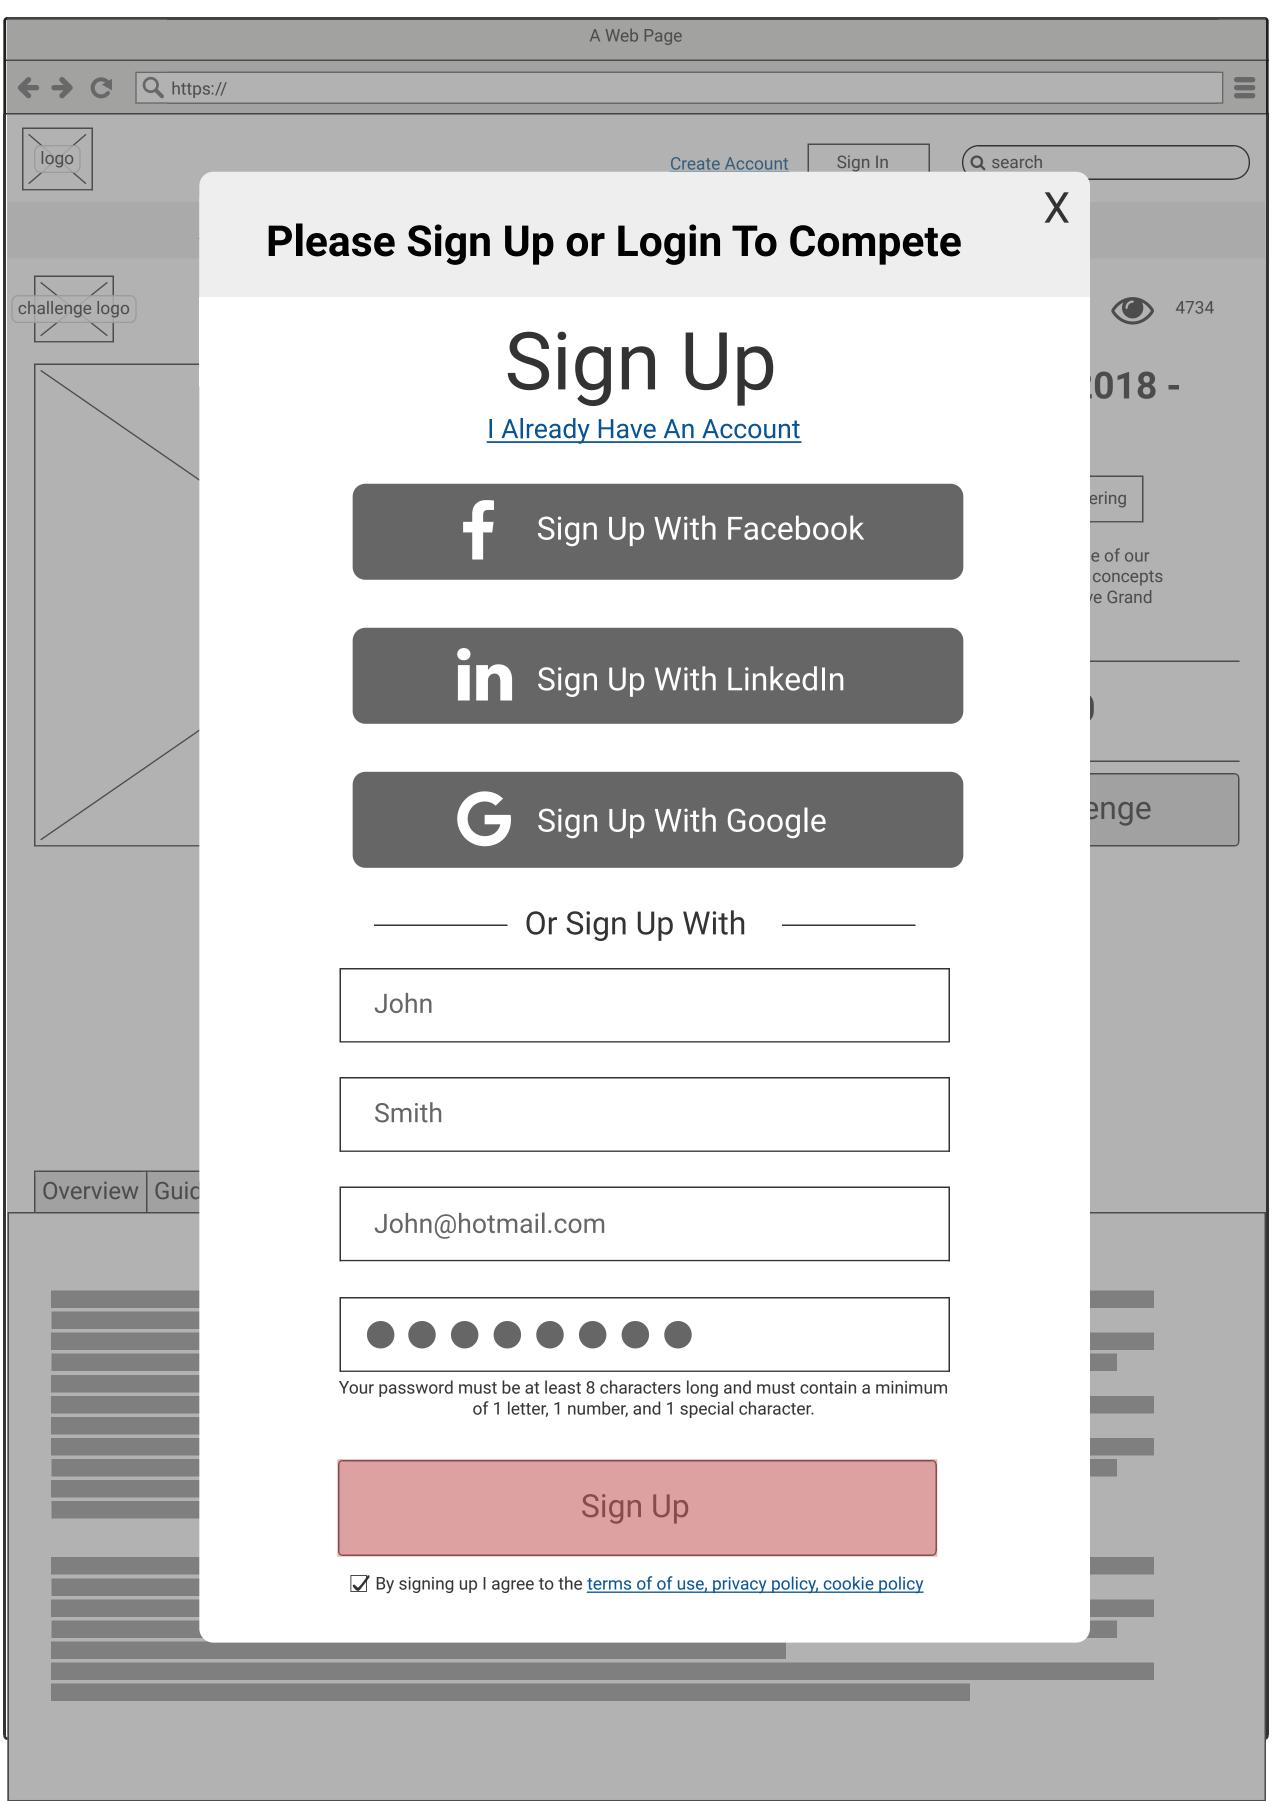

Changed wording of "sign in" on page to create account to say "sign up," as saying "sign in" when asking a user to create a new account sends a mixed message.

I moved the "I have an account" button to the top, as users who already an account should not have to scroll to the bottom to find their option.

I moved the "agree to terms of use etc." checkbox right next to the Sign Up button so that users won't have to scroll all the way back up the page to check it when they're ready to sign up

Sign Up Filled In 4 / 11

Changed wording of "sign in" on page to create account to say "sign up," as saying "sign in" when asking a user to create a new account sends a mixed message.

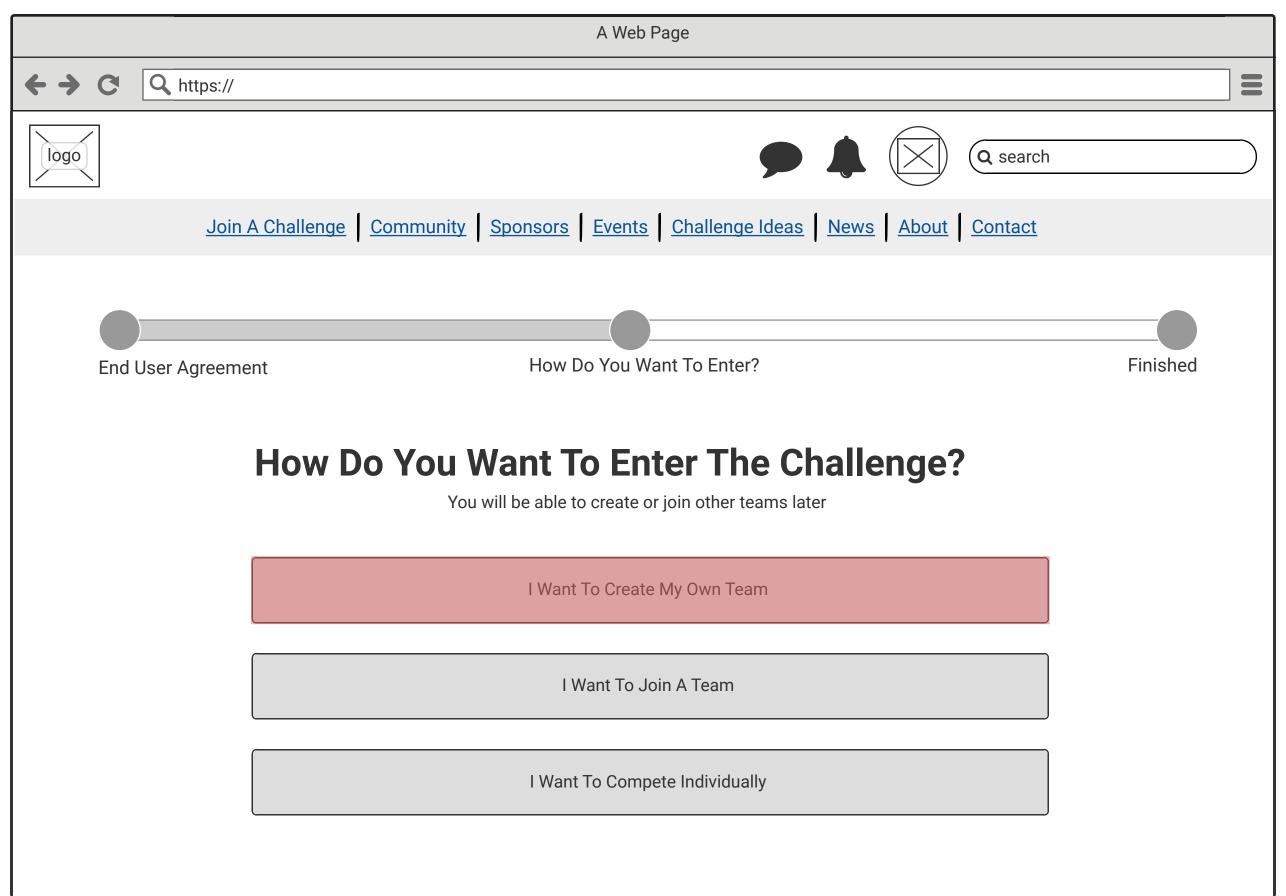

I moved the "I have an account" button to the top, as users who already an account should not have to scroll to the bottom to find their option.

I moved the "agree to terms of use etc." checkbox right next to the Sign Up button so that users won't have to scroll all the way back up the page to check it when they're ready to sign up

How Do You Want TO Enter 7 / 11

Moved the text "you will be able to create or join other teams later" to right below the title to contain the text in one section and the buttons in another. This leads the users eye down the page without making them jump around.
